MANUAL MODULAR COUNTER WITH RESET

JOLLY

STROKE TOTALISING COUNTERS

Basic module :

- **4-digit display h = mm 3**
white digits on black background
- **weight gr. 76**
- **dimensions** (a x b x h) mm 40 x 66 x 48

Rationally shaped, both for key command and reading control, it makes possible to easily group together several units, both in vertical or horizontal rows in order to constitute a slanting keyboard, bookstand style. The easily replaced plate dedicates every time each module to a specific function. All the devices in the same horizontal row can be reset simultaneously by means of the small buttons on both sides.

CODE	MODEL
FC0042/001	base modul
FC0042/002-3-4-5-6	2,3, or more modul assembled
